

# NEHA PANDE

Full-Stack Engineer • React • TypeScript • Python • GenAI (RAG/LangChain/MCP) • ASP.NET Core • System Design  
+91 83298 29466 | pandeneha99@gmail.com | linkedin.com/in/neha-pande | github.com/nehapande09 | Pune, Maharashtra

## PROFESSIONAL SUMMARY

Full Stack Software Engineer with 1.5+ years of experience (AI Engineer Internship + full-time production role) building scalable web applications using React.js, TypeScript, Python, and REST APIs, with hands-on GenAI specialization in RAG pipelines, LangChain, Claude/OpenAI API integration, and Model Context Protocol (MCP). Experienced in backend development with Python (Flask) and ASP.NET Core/C#, with strong understanding of networking fundamentals, API design, and system design principles. Proven ability to deliver end-to-end features in Agile teams with exposure to Azure, CI/CD pipelines, and SQL Server environments.

## TECHNICAL SKILLS

**Frontend:** React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Component Architecture, State Management

**Backend:** Python, Flask, ASP.NET Core, C#, Node.js (fundamentals), REST API Design, DTO Patterns, MVC

**AI / GenAI:** Generative AI, RAG Architecture, LangChain, Claude API, OpenAI API, MCP (Model Context Protocol), Prompt Engineering, Vector Search/Embeddings, Chunking Strategies, Hallucination Mitigation, Agent Design

**System Design:** Networking Fundamentals, API Architecture, Microservices Concepts, CI/CD, System Scalability

**Databases & Cloud:** Microsoft SQL Server, SQL, MongoDB, Azure (AZ-900), AWS (CCP), Jenkins, GitHub, Postman

## PROFESSIONAL EXPERIENCE

### AI Engineer Intern — Haptiq Pvt. Ltd., Pune

Dec 2024 – May 2025

- Built VeriFact, an end-to-end RAG-based fact-checking pipeline — retrieved evidence from News API and Wikipedia, chunked and embedded source content, and grounded LLM outputs with confidence scores to reduce hallucinations.
- Orchestrated multi-source retrieval and prompt chaining with LangChain to unify News API and Wikipedia into a single AI inference pipeline, built on a Python Flask backend with a React UI.
- Evaluated vector-store retrieval vs. traditional SQL search and chunking strategies, laying groundwork for the team's GenAI roadmap.

### Software Engineer — Full Stack — Haptiq Pvt. Ltd., Pune

Jul 2025 – Present

- Built production React.js + TypeScript features end-to-end — component architecture, REST API integration, state management, and deployment.
- Designed RESTful APIs with DTO patterns and networking abstractions; applied system design thinking across frontend-backend boundaries.
- Integrated Claude API with structured prompt engineering to automate code review, debugging, and AI-assisted feature development, extending internship RAG/LangChain work into production.
- Applied Model Context Protocol (MCP) concepts to connect Claude to internal tools and data sources.
- Collaborated on Python Flask and ASP.NET Core/C# back-end modules; gained cross-stack exposure to .NET architecture patterns.

## PROFESSIONAL PROJECTS

### GoPlus - SafeMark Inc. — React, TypeScript, ASP.NET Core, C#, SQL Server, Azure, REST APIs

- Developed frontend features for a rental platform (e-bikes, scooters, subscriptions); built REST API integrations with DTO and MVC patterns.
- Collaborated with backend team on ASP.NET Core/C# modules; used SQL Server, Azure DevOps, Postman, and Agile workflows.

### Daily Racing Form (DRF) — TypeScript, JavaScript, REST APIs, SQL, Jenkins, Git

- Built and maintained UI components for a high-traffic racing application; integrated REST APIs and optimized frontend rendering performance within Jenkins CI/CD pipelines.

## COLLEGE PROJECTS

### MindApp — AI-Integrated Wellness App — React, Claude API, LocalStorage

- Integrated the Claude API for AI-driven mood detection and personalized book recommendations, with prompt design tuned for empathetic, context-aware responses.

## CERTIFICATIONS

Anthropic (May 2026): MCP Advanced + Intro • Agent Skills • Claude Code in Action + 101 • AI Fluency Framework & Foundations

Microsoft Azure Fundamentals AZ-900 | AWS Cloud Practitioner Essentials

## EDUCATION

MCA — Master of Computer Applications, IICMR, Savitribai Phule Pune University • CGPA: 8.04

2023 – 2025

B.Sc. Computer Science, MIT College of CS & IT, SRTMU Nanded • CGPA: 9.68, 3rd Rank, Student of the Year

2019 – 2022
